# HDMI 2.0 Fiber Optic Extender

## User Manual

### 1. Description

The HDMI Fiber optic extender provides extension of HDMI signals long distances over one fiber optic cable. It supports high resolution up to 3840\*2160@60Hz. The extender can use for a wide range of applications requiring long distance transmission of high resolution with high quality by its good stability and powerful security.

### 2. Features

- Transmits HDMI video signals up to 1-20km over a pair fiber optic cable;
- Support video resolution up to 3840\*2160@60Hz signal;
- Supports screen formats YUV444 and RGB444;
- Compliance with HDMI 2.0 and HDCP 2.2 standard;
- Supports RS232 two-way transmission;
- Support USB keyboard and mouse;
- Support for embedded audio input and output;
- Supports bidirectional transmission of infrared signals;
- High compatibility, can auto-match source and display device;
- Built-in automatic adjustment system, make the image smooth, clear and stable;
- Simple to install, plug and play;

### 3. Package list

- HDMI transmitter .....1pcs
- HDMI receiver .....1pcs
- USB-A to USB-B Cable.....1pcs
- IR transmitter/receiver Cable.....1pcs
- Power adapter .....2 pcs
- User manual .....1 pcs

## 4. Specifications

Parameter	Description	
Video	Standards	HDMI 2.0; HDCP 2.2
	Maximum pixel clock	340MHz
	Maximum data rate	18Gbps
	Maximum resolution	3840*2160@60Hz
	Connector	HDMI-A
	Impedance	100Ω
Optical fiber	Interface	SFP model – LC connector
	Fiber type	Single-mode
	Wavelength	T-1310nm R-1550nm
	Interface bandwidth	2.5Gbps
IR	Interface	3.5mm earphone seat
	IR frequency	28Khz-61Khz
RS232	Interface	Industrial Terminal
	Signal Direction	duplexing
	Baud Rate	Self-adaptive Max: 115200bps
	Data Bits	8
Other	Power supply	The power adapter: DC 12V
	Power dissipation	MAX 13W
	Temperature	Operating: -5℃ ~ +70℃
	Humidity	Operating: 5% ~ 90%
	Dimension	123*82*23mm
	The warranty	1 year free warranty

## 5. Panel

Transmitter:

Receiver:

---

<b>Port name</b>	<b>Description</b>
IR IN/OUT	IR Input/Output
HD IN/HD OUT	HDMI Input/Output
UTP	RJ45 cable port
USB	USB Host is connected to your console or laptop
K/M	Keyboard/mouse
T/G/R	RS232 interface with TXD/GND/RXD at the terminal
DC12V	The power input
<b>LED indicator</b>	<b>Description</b>
FIBER	Detect the SFP fiber module
LINK	Normal state often off, flashing once: NO Link; flashing three times: forward video normal, reverse data abnormal; flashing four times: forward video abnormal, reverse data normal
STA	The light is always on when it is in normal condition
PWR	Power lamp.

## 6. Installation

- 1、 The HDMI signal source (such as set-top boxes, Blu ray DVD, computers, etc.) access to the HDMI transmitter ;
- 2、 Connect the receiver of the HDMI extender to the display device (such as a high definition TV, a tiled screen, etc.);
- 3、 The LC interface optical fiber line connects the Transmitter and the Receiver SFP optical fiber interface module;
- 4、 Will be the transmitter or the receiver connected to a power source, when the indicator lights up normally, normal operation of system.

## 8. Warranty

Please keep the user manual in a place where safety and easy to find so that you can read it immediately when meet problems.

safety instruction:

- Please do not disassemble this product by yourself because it doesn't including DIY function.
- Please don't make the product touch water in case damaged, because it is Not waterproof design.
- Please use dry cloth material when clean the product surface.
- Please do not use this product in the environment of too wet or too high temperature.
- Please avoid contact with corrosive substances.
- When there is damage or other physical damage to the product, please stop using and contact with customer service to get support.
